

# Custom Corporate Gifts

"Useable Art" by Michigan Artist Maggie LaNoue

Does your organization give gifts to employees or visitors? If you've been looking for something that would promote your organization artistically, something that would be a keepsake for the recipient, Albion Design can help.

*Porcelain plates are one of the coolest gifts you can give. They are elegant and collectible.*

We have created custom porcelain plates, personalized paperweights, and custom coffee mugs for our clients. We take your ideas, and photos if you have them, and turn them into art. Or, you can use the many drawings we already have of Michigan landmarks, and old time scenes. See proofs on-line of the work in progress.

Personalized paperweights make great gifts for employees, clients or board members.
